Clay Roofing Tiles

IMERYS Toiture

THE NATURAL CHOICE

# >> ALSACE LISSE 16 x 38 Clay Roofing Tiles

The Alsace Lisse Tile Jacob 16X38 is a clay plain tile made at Commenailles in the Jura. Thanks to its size this clay roof tile is one of the last to reflect the original characteristics of a typically Alsatian tile.

Its colours used individually or mixed combine with an extensive range of matching accessories to create the most traditional of roofs.

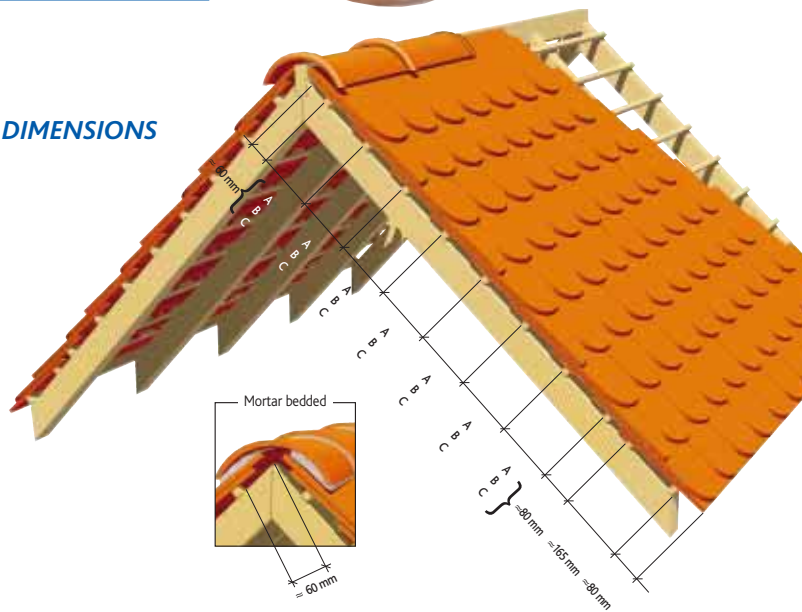

This clay tile, as with all made by Imerys Roof Tiles, bears the hallmark of distinction of a world leader supported by technical excellence at all 13 manufacturing locations.

## Main Characteristics

Plain tile. Laid broken-bonded	Weight per m <sup>2</sup> ≈ from 60 to 64,5 Kg (depending on gauge)
Length overall ≈ 380 mm	Variable gauge ≈ 145, 150 or 155 mm
Width overall ≈ 160 mm	Working width ≈ 160 mm
Unit weight ≈ 1,5 Kg	Number per pallet : 720
Coverage per m <sup>2</sup> at gauge of :	
145 mm : 43	
150 mm : 42	
155 mm : 40	

### DIMENSIONS

### COLOURS

Natural red

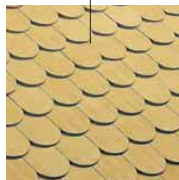

Burnt red

Dark brown

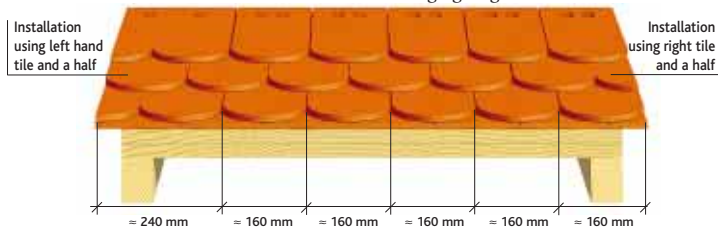

Lauze

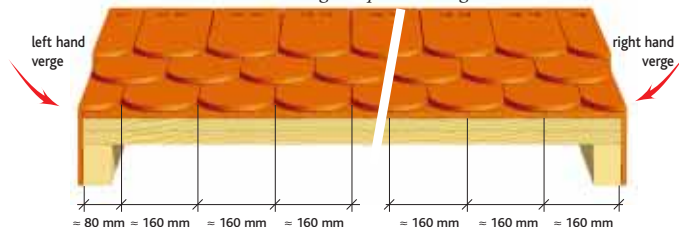

To minimise the effect of minor colour variation in the fired product it is advisable to mix tiles from 3 different pallets.

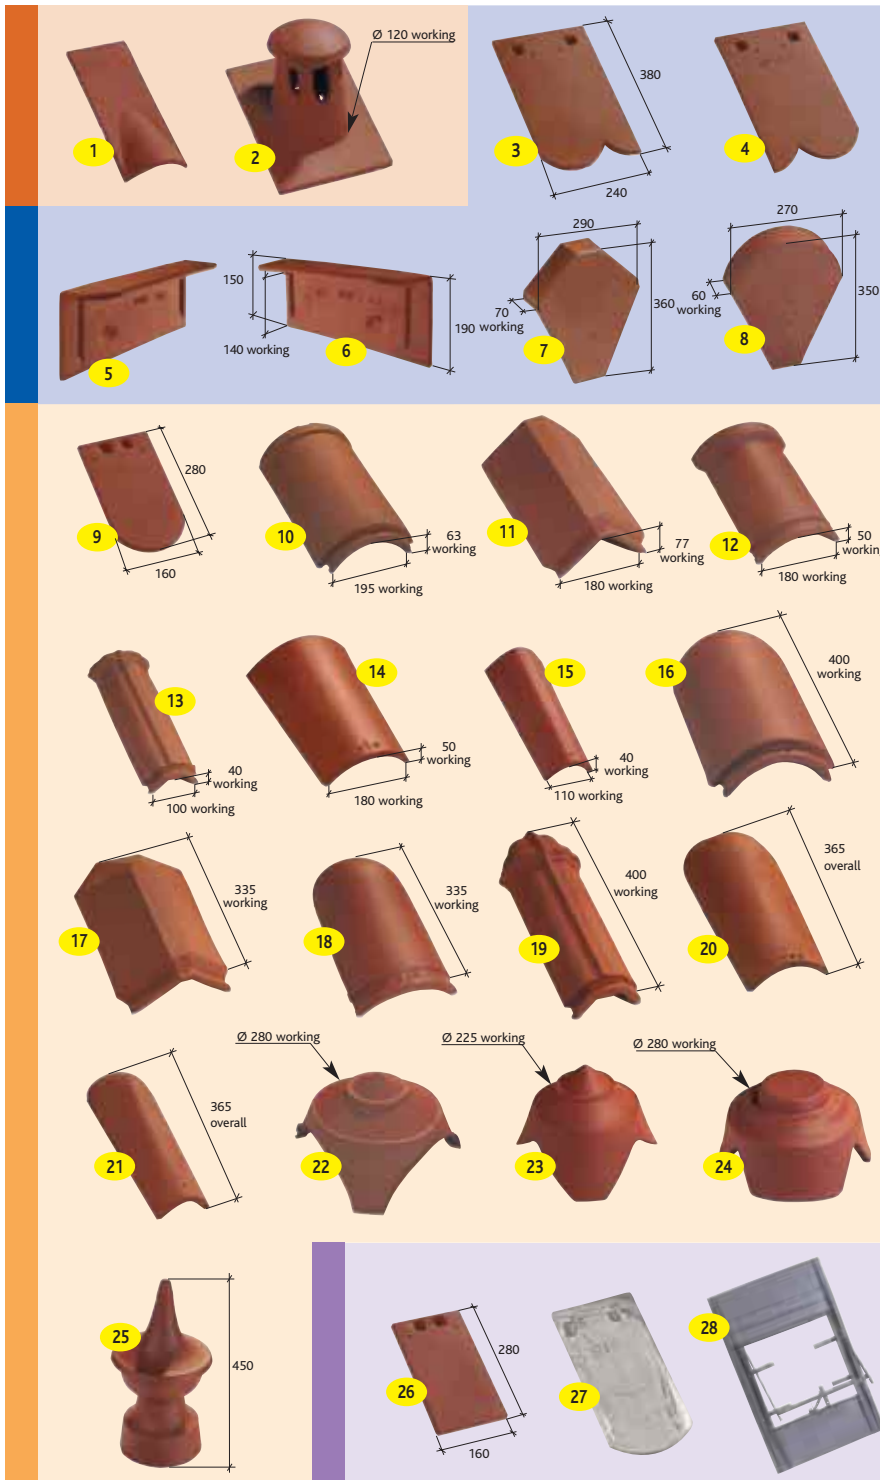

Installation with overhanging verge

Installation using independent verge tiles
