THE NATURAL CHOICE

>> ARBOISE RECTANGULAR Clay Roofing Tiles

The rectangular Jacob Arboise is a flat small format interlocking clay tile made at Commenailles in the Jura. It must be laid broken bonded and at steep roof pitches. A modern concept, its shape plus longitudinal and cross cambers replicate all the aesthetics of a traditional plain tile. The range of colours ensure that this clay tile is appreciated particularly in the large Centre-Est region. This clay tile, as with all made by Imerys Roof Tiles, bears the hallmark of distinction of a world leader supported by technical excellence at all 13 manufacturing locations.

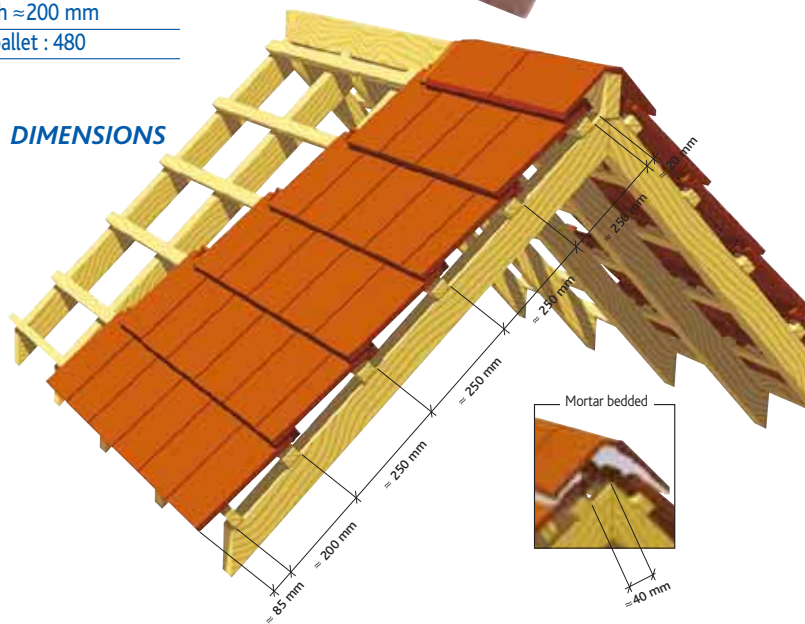

Ref.301

Main Characteristics

Flat interlocking tile	Laid broken-bonded
Length overall ≈320 mm	Weight per m ² ≈44 Kg
Width overall ≈235 mm	Variable gauge ≈250mm
Unit weight ≈2,2 Kg	Working width ≈200 mm
Coverage per m ² ≈20	Number per pallet : 480

DIMENSIONS

COLOURS

Natural Red

Slate
